

Dear Members,

This is to inform you that NAFTA countries (United States of America, Canada and Mexico) are important trading partners from export point of view (average monthly exports of US\$ 7.3 billion in FY22-23, [click here](#) to view) and there is trade surplus with all three countries. United States of America is our biggest trading partner and largest export destination. In this context, recently at Senior Official's Meeting (SOM) the Commerce Secretary, Ministry of Commerce & Industry, Government of India has directed that trade issues related to these countries are taken up to increase the exports in particular with the United States of America.

Therefore, members are requested to provide list of trade issues/ challenges for export of Oilseeds and Oils faced while exporting, which could be taken up for addressing trade barriers, promoting exports and incorporate in the trade promotion strategy for these markets (United States of America, Canada and Mexico) to the Council on the email id sakshi@iopepc.org by today EOD i.e.31st May 2023.

Regards,

Ramesh Kolath
